	1	SR	335-14-3-.03(5)(c)1(ii)	

Viol. Notes: Pursuant to ADEM Admin. Code r. 335-14-3-.03(5)(c)1.(ii), a generator may accumulate as much as 55 gallons of hazardous waste in containers at or near any point of generation where wastes initially accumulate, which is under the control of the operator of the process generating the waste, without a permit or interim status provided that he marks his containers either with the words "Hazardous Waste" or with other words that identify the contents of the containers. As noted during the inspection, U. S. Steel Fairfield Works failed to label six satellite accumulation containers (one metal 55-gallon drum containing liquids removed from waste aerosol cans and five metal 20-gallon tubs containing waste varnish) with the words "Hazardous Waste" or other words identifying the contents of the containers.

Viol. Notes: Pursuant to Permit Condition III.B.5.a. of U.S. Steel Fairfield Works' Permit referencing Appendix D, Section 4.1 of the permit application, prior to sampling, precautions will be taken to prevent sampling equipment such as the water level indicator, pump, and tubing from coming into contact with the ground or other potential contaminated surfaces. These precautions will include using new tubing that will be unwound just prior to use and connected to the pump. The tubing will be placed on plastic when connected to the pump, if needed, and placed directly into the well. As noted during the inspection, the groundwater sampling crew did not conduct the groundwater sampling event in accordance with U.S. Steel Fairfield Works' Sampling and Analysis Plan. Specifically, tubing used during the sampling event was not placed on plastic when connected to the pump, as required by U.S. Steel Fairfield Works' Sampling and Analysis Plan.

Viol. Notes: Pursuant to ADEM Admin. Code r. 335-14-3-.03(5)(a)4. referencing ADEM Admin. Code r. 335-14-6-.02(5)(c), a sign with the legend, "Danger-Unauthorized Personnel Keep Out", must be posted at each entrance to the active portion of a facility, and at other locations, in sufficient numbers to be seen from any approach to this active portion. The legend must be written in English and in any other language predominant in the workplace and the area surrounding the facility, and must be legible from a distance of at least 25 feet. Existing signs with a legend other than "Danger-Unauthorized Personnel Keep Out" may be used if the legend on the sign indicates that only authorized personnel are allowed to enter the active portion, and that entry onto the active portion can be dangerous.

Warning signs were not posted at each approach to the hazardous waste accumulation areas located at Hill 60, the Roll Shop, and the Ladle Metallurgy Facility.
